THE ADVERTISER who uses the classified column has one distinct advantage over a competitor who can afford display space. The classified advertiser talks to a buyer who knows what he wants. People who read classified advertisements do so because they are looking for something. When the classified advertiser tells them where to find it, the Bulletin reader is prompt in response. Classified advertisers in the Bulletin are charged but one cent a word.

PERKINS ROBBED ON WILHELMINA

The San Francisco Examiner of July 27th says:

W. H. Perkins of Chicago, a passenger in the steamer Wilhelmina from Honolulu, met his fiancée at the dock yesterday upon landing with the bad news that he had been robbed of \$240 in cash on the way up from the islands. Then Perkins and his fiancée, an attractive young woman, hurriedly left the dock, before the newspapermen or anybody else could learn more about the affair.

Perkins went to Honolulu to look after the affairs of an automatic telephone company. When two days out from Honolulu, on the way to this city, he missed his purse, which he remembered as having placed beneath his pillow the night before. Upon going to his stateroom, however, he was unable to find any trace of the purse or its contents, nor could the search that Captain Johnson and the crew began lead to any clue.

NEW YORK STATE IS TO HAVE COMPLETE LEGISLATIVE INVESTIGATION.

Top row—Cline, Wagner and Young. Bottom row—Foley, Toombs and Merritt.

NEW YORK, July 13.—What promises to be one of the most sensational legislative investigations ever held in this country was started July 8 in New York city. Eight members of the New York senate and assembly have been named to delve into secrets of past corruption. The famous Alda-Conger investigation will be a small incident to the inquiry. The committee will have \$50,000 for expenses. It will sit at intervals during the summer and fall, most of its sessions being held in New York and Albany. It is empowered to investigate charges of alleged corruption growing out of the mysteries of fire, industrial and other branches of the insurance business, with the exception of life, and such other matters as may be brought to its attention on charges "properly sworn to and verified by affidavit." The latitude permitted the committee will also allow it to probe into any other charges which in the judgment of the members are justified. The members are senators Victor M. Allen, Alexander Brough, Robert F. Wagner, Assemblymen Edwin H. Merritt, Jr., William Coine, Frederick R. Toombs, Frank L. Young and James A. Foley.

ROOM FOR ALL ON THE KOREA

Pacific Mail Liner May Be Given Prompt Practique

The Pacific Mail liner Korea, from the Orient, has been heard from through the receipt of a wireless message of over three hundred words which came to the agency of H. Hawfield last evening.

The Korea is bringing Dr. Foster, a United States Marine Hospital official, who for some time past has been stationed at Hongkong. Dr. Foster will make an inspection of the passengers and members of the crew before arrival here, and it is expected that the vessel will therefore be granted immediate pratique by the local quarantine officers.

According to advices received here, the Korea is expected to arrive off the quarantine about 2 o'clock on Saturday afternoon. The vessel was 976 miles off the port last night.

Should the steamer reach the entrance to the harbor between 2 and 3 o'clock on Saturday afternoon, she will in all probability be dispatched for San Francisco at or near 10 o'clock on Sunday morning. The vessel is bringing fourteen hundred and fifty tons of general cargo from Manila, Hongkong and Japanese ports of call.

Included in this consignment for Honolulu are 3886 sacks of bone meal for fertilizer, 8540 sacks rice, 429 barrels of Oriental wine, 130 bundles of matting, 210 casks of nut oil, 540 tubs misu, 650 tubs sake, 748 tubs soy and 5993 packages merchandise.

There is room on board the Korea for at least one hundred and twenty-five cabin passengers from Honolulu. According to the booking list at H. Hawfield & Co., nearly this number have signified their intention of taking passage for the Coast by the liner. It is stated that all applicants can be accommodated.

THE NEW ORPHEUM.

The laughable musical farce, "O'Grady's Friend," which is being retained on the boards at the New Orpheum for the balance of the week, is a pronounced success in every way and is deserving of the patronage given it. Only three more nights remain before the closing of the Casino Musical Comedy Company's engagement. On Wednesday the members of the company will depart on the Sierra for San Francisco. A change of musical program is promised for tonight, and all of the principals will be heard in new numbers. All of the successes of the season will be repeated during the remainder of the week.

PINCHOT SAYS BURBANK IS ONE OF "GREAT MEN"

Lauds Horticulturist After Long Discussion on Growing Trees for Timber.

Santa Rosa, July 23.—"I consider Luther Burbank one of the greatest men in the world today," was Gifford Pinchot's declaration after meeting the horticulturist in this city today. It was not the first time they had met, as some years ago Pinchot and Burbank talked of the possibilities of Burbank's great work.

Pinchot was particularly interested in Burbank's attainment in making trees grow rapidly and thereby become of greater value as wood producers.

Burbank says he believes in the conservation doctrine as expounded by Pinchot.

GEORGE V. PICKS OUT DESIGN FOR STAMPS

Royal Philatelist Engaged in a Task That Delights His Collector's Soul

London, July 23.—King George at last has a job after his own heart, that of supervising the production of the new English postage stamp. He is president of the English Philatelic Society, and is working on the proposition with characteristic assiduity. He has had several rough designs submitted, but thus far none have met with his approval.

He is anxious to break away from the traditional portrait stamp and get something artistic, picturesque and symbolical, as is the case with the French and Tasmanian stamps.

Sycophantic members of the court suggest that his own portrait would be the best design, but the king refuses to listen to them. He is possibly one of the greatest experts in philately in the world, possessing a stamp collection valued at over \$500,000. In his own words, "stamp collecting is one of the greatest pleasures of my life."

VIRGINIAN HAS BEEN RELEASED

Quarantine Was Lifted And Vessel Came Inside

The American-Hawaiian freighter Virginian, with her large shipment of general cargo and merchandise from both the east and west coasts of the United States, came inside the harbor and berthed at the railway wharf at an early hour this morning.

The Virginian was under the ban of the Federal quarantine service throughout yesterday. A cable received by General Freight Agent C. P. Morse last night cleared up the difficulty in which Captain Greene, master of the Virginian, found himself owing to his failure to keep in his possession a certificate of fumigation that had been issued the vessel by the medical officer stationed at Salina Cruz.

Dr. Carl Ramus and his staff of medical officers who look after the health of the port of Honolulu are exercising unusual care in the handling of vessels now arriving from foreign ports. It is well known in health circles that considerable sickness has been reported from the Mexican and Central American coast. It has therefore been required of the American-Hawaiian vessels that they receive a thorough fumigation before departing from the Pacific terminal of the Tehuantepec Railway. When this work has been accomplished to the satisfaction of the medical authorities stationed there, a certificate to that effect is issued and given to the skipper.

It is claimed that when the health authorities of San Diego visited the Virginian upon her arrival, the certificate of fumigation, together with other papers, were taken up and the paper certifying that the fumigation of the ship had been performed, is said to have not been returned.

The Virginian is expected to be ready to sail for Kahului on Sunday evening. From the Maui port the Virginian will proceed to Kaunapali and thence to Hilo. A quantity of sugar will be taken on at various island ports.

LUCAS TOO BUSY TO BE MAYOR

"My business interests are such that I have decided to retire from politics. I will not run for the office of mayor."

Jack Lucas, who is familiarly known by the Hawaiians as "Panini Jack," made the above statement this morning when interviewed on the street. Jack said that he had previously announced that he was a candidate for mayor on the Republican ticket. But since then, his business interests have developed to such an extent as to require his entire time. He accordingly decides to keep out of politics.

J. C. Cohen, the aspirant for Senatorial honor, who is said to still have the support of his friends, is looking around for more support. One of Joe's friends says that Joe should get the support of the business community, and to that end, he is working day and night.

Despite the heavy rainfall this morning, Cohen was out in the street, feeling the political pulse of his friends.

WHY NOT STOP THAT ITCH?

10c Will Bring A Sample Direct From the D. D. D. Laboratories.

Is it worth 10 cents to you to stop that awful, awful agonizing itch?

If you are afflicted with skin disease, the kind that seems to baffle medical treatment, and leaves you wild with itch, we hope you will not fail to investigate a prescription which is now recommended by many of the best skin specialists, even in preference to their own prescriptions. It is the simple, soothing oil of wintergreen compound known as D. D. D. Prescription and sells at \$1.00 a bottle. But a 10-cent sample bottle must convince you that the itch is instantly allayed by this prescription. Get a liberal sample bottle of the healing, soothing, external remedy, D. D. D. Prescription—and see!

We feel quite sure that before long you will be cured, and at any rate we know—KNOW POSITIVELY—that your itch will be allayed instantly the minute that soothing liquid is applied to the skin.

Write direct to D. D. D. Co., 112 Michigan St., Chicago, enclosing 10 cents for the sample bottle.

Honolulu Drug Co., Fort St.

"Did Simpkins get any damages in that assault case?" "Did he? My dear fellow, you ought to see his face."—St. Louis Star.

REGISTRATION

BOARD VACANCIES

(Special Bulletin Correspondence)

Hilo, Aug. 1.—Memberships on the local board of registration appear to be at a discount this year. Two out of the three members of the board for East Hawaii have resigned.

Otto Rose, the Republican member, sent his resignation to governor Frear last Friday. He stated that he had applied for the position long before he thought of running for Supervisor, and that now that he expected to take a very active part in politics, he did not think it proper to accept the position.

M. S. Pacheco, the Home Rule member, resigned for a similar reason, as he expects a nomination for Supervisor from the Home Rulers.

The name of John Kakae was recommended by the Democrats, but they have been informed that he is not eligible, and as a consequence the untitled ones have suggested the name of W. K. Campbell. In the meantime J. K. Maa has received a letter from Secretary Mott-Smith stating that if he resigned as an election inspector, he might be appointed on the board of registration.

It is understood that former Supervisor Supe has been recommended by the Republicans to fill the vacancy created by Rose's resignation, but that Joe Vierra has also been strongly backed for the place.

PERRY DAVIS' PAINKILLER

when thoroughly rubbed in relieves strains and sprains in joints or muscles from any cause. All druggists, 25, 35, 50c sizes. Large bottles the cheapest.

An Indiana man swallowed a number of radish seeds and planted liver pills in his garden. The return to the soil movement has its drawbacks.—Toledo Blade.

How people love money! And how they like to abuse other people for loving it!—Aitchison Globe.

SOLDIERS DO

GREAT HIKE

The fifty men from Company H, 20th Infantry, under Lieutenant Pardee, made good in their strenuous hike over the Koolau range. The men were put to it along the lines that might be expected in time of war or attack, and getting a company of fighters to the other side of the island in a hurry, regardless.

The men had a taste of all kinds of weather from sunshine to deluge. Lieutenant Pardee states that he experienced nothing so severe during his service in the Philippines.

To add credit to the boys who made this hike, it is stated that no food passed their lips for twenty-four hours.

LIGHTNING KILLS

BOY IN IRON BOAT

Cloudburst and Electric Storm Visit a Summer Resort Near Rochester.

Rochester, N. Y., July 13.—A despatch from Line Lake says one life was lost and two persons seriously injured when a cloudburst and electrical storm visited the summer resort late yesterday afternoon. Two inches of water fell in five minutes, causing loss to property and crops.

Ralph Westcott, of Franklinville, a 16-year-old camper, was killed by lightning while in a small iron boat with several companions from a Presbyterian Sunday school camp, in charge of the Rev. George Storer. The boys were caught in the middle of the lake when the cloudburst broke, and they started rowing madly for shore, while their rocking boat filled rapidly with water. They were within a few yards of the shore when a bolt of lightning struck them. Westcott seated in the middle of the boat, was instantly killed, and two of his companions were seriously hurt, one of them being knocked out of the boat.
